

Dear Summit Parents,

My name is Michelle Chambers and I am on the committee for the Summit Gala. I have 2 kids that attend Summit, an 8<sup>th</sup> grader, Dylan and a 5<sup>th</sup> grader Alyssa. My family is ALL about sports. My son plays basketball, soccer, tennis and golf for Summit and my daughter plays basketball and volleyball with I am sure more to come as she gets in junior high. The opportunity to play sports that they wouldn't have at public school is just one of the many things we love about Summit.

During these 4 years we have been at Summit, I have witnessed both the growing success of our sports teams as well as the growth of our student body. This gym is an integral part of that growth.

This gym is the home of future championship games. It's the place where teams will celebrate success and teams will huddle together after a loss. A place they know belongs to them. There won't be any more renting facilities. It will be their Home Court.

As much as this is about having a state of the art facility for our teams, it's also about the future of Summit. Many times, I have listened as Pastor Ron talks about the limited capacity of our school. In order to continue to grow at the rate we are, we need more space. This facility will open up the ability for us to have a 2<sup>nd</sup> location for our school. It will provide the opportunity for new families to be part of the Summit family.

To me, this is about the future of our school. It's about the belief that we know we will grow. I am proud that I get to be a part of the vision of our leaders and I know that I will look back and be amazed at all that we have been able to accomplish together.

If you aren't already part of the PFO team, please join us as we look to the future of Summit.

Have a Merry Christmas!

Michelle Chambers
