

Dear Summit Families,

As Summit Christian Academy continues to grow, we regularly evaluate our programs and services to ensure they are equipped to meet the needs of our students and families now and in the years ahead.

After many years of managing food service internally, we believe the time has come to transition this area to a partner with the experience, staffing, and capacity to serve our growing school community.

Beginning **September 8. My King's Table Catering (MKT)** will provide food service for students across all Summit campuses.

My King's Table is already familiar to Summit, having provided food service at our High School campus. We have developed a strong relationship with their ownership and team and are confident in their ability to build on our current program.

Transition & Our Current Team

Until the September transition, our current Summit food service team will continue serving students as usual. We are grateful for their faithful service, and current food service employees will have the opportunity to join the My King's Table team.

Lunch Pricing

Current K–12 lunch prices will remain in effect through **September 8**. When My King's Table assumes food service operations, new pricing will take effect.

Like families and businesses everywhere, Summit continues to experience increases in food, supplies, labor, and other meal service costs. We have worked carefully to keep the lunch program reasonably priced and recognize that any increase matters to families.

Under the new program, a standard hot lunch for K–8 will be **\$5.50**. Additional food, snack, and beverage options will also be available, with pricing based on the item selected. High School prices will remain the same as last year.

Purchasing lunch at school remains optional, and families may continue sending food from home. Student food purchases will continue to be billed through your family's **FACTS account**.

Food Allergies

Families of students with food allergies should continue to notify the school nurse. Our nursing staff will work with families and coordinate with My King's Table regarding available meal options and any necessary accommodations.

We will provide additional information, including menus and other details, as we approach the September launch. Thank you for your continued partnership with Summit Christian Academy. Thank you for your continued partnership with Summit Christian Academy.

Sincerely,

Dan Giddens
Superintendent
